

# WEBINAR/WORKSHOP - FREE OF CHARGE (2,5H)

## Migration to SAP BW/4HANA

### Migration to SAP BW/4 HANA

biX Consulting is a highly experienced SAP partner and has accompanied many companies in their transition from conventional technologies to the SAP BW/4 HANA platform, from the initial idea, through profitability calculations, to complete project implementation. We would like to share the experience from all these successful projects with you and show you the optimal way into the SAP HANA environment.

### Your benefits

Within the framework of individual and free workshops or web sessions (lasting about 2.5 hours), we provide the basic information (for example, brownfield or greenfield approaches, type of conversion, differences between the concepts, etc.) and work with you to develop initial ideas and packages of measures for the changeover. Afterwards, you will receive an offer for the required services and expenses as well as the tools we can use for a quick and economic realization of the migration.

### Recommended agenda

- Advantages of the in-memory database SAP HANA compared to conventional database systems
- Optimization of the Total Cost of Ownership (TCO) using modern tools
- SAP product strategy and roadmap for BI applications
- Recommendation of the migration scenario relevant for you
- Roadmap for implementation including cost analysis

€ 00,00 net. plus poss. travel expenses according to expense

We would be very pleased if this proposal meets your needs. If this is the case, but you would like to request any adjustments, please feel free to contact us at any time.  
We would be happy to design your individual workshop together with you.
